Re: Direct ChassisLink Program

TO OUR VALUED CUSTOMERS:

Beginning August 3, 2009, Maersk Lines and Saf Marine will not supply free chassis to truckers that are moving containers from APM terminal in Elizabeth NJ, PNCT terminal in Newark NJ and Norfolk Southern Croxton ramp in Elizabeth, NJ. Instead customers of these lines will be required to provide their own chassis or obtain a chassis from their chassis pool for a daily fee of \$11.00. Please see below website to get additional information.

<http://www.chassislink.com/>

Our truckers will obtain a chassis from the chassis pool which means there will be an \$11.00 daily fee from the time the chassis is out gated until it is returned to the origin location. If our trucker is required to use their own chassis due to no availability or customer request, then there will be a \$125.00 chassis fee for each move.

Thank you for your understanding and as we receive more developments, we will keep you posted.

Sincerely yours,

Intermodal Management System
